

2017 Renewal Application Instructions

Maintaining Your SPARK Certification

Your SPARK ARPC and/or ARPS certification status is granted on a calendar year basis. Certification renewal is due at the end of each calendar year following the year in which the initial certification is earned. The 1-year renewal period was established based on the high frequency of changes in the rules and regulations in the retirement industry.

The annual renewal requirement was developed to ensure that individuals holding the SPARK ARPC and/or ARPS designation remain up-to-date with current industry rules and regulations and continually expand their knowledge of industry issues and practices. By requiring a minimum of **10 continuing education credits each year**, individuals who hold the ARPC and/or ARPS designation are exposed to current information directly related to advanced topics in the retirement plan industry.

Continuing Education Requirements

To renew, individuals must earn credit for at least 10 hours of continuing education as an attendee or a presenter each calendar year. Courses may be taken online or in person. CE credit will be accepted for:

- ▶ Successful completion of a course, seminar, or workshop with a focus on advanced topics in the retirement plan industry. This includes a wide range of topics but does not include plan or investment sales skills. Examples of acceptable course topics include:

- Plan design, plan investment strategies and enrollment programs

Examples of courses that do not qualify:

- Sales skills
- ▶ Attendance at a national or regional industry conference or seminar directly related to retirement plans. Examples of organizations that host acceptable conferences and seminars include:
 - SPARK, ASPPA, CFDD, NIPA, TRAU and f360
- ▶ Participation in employer retirement plan educational sessions.
CE credit for employer sessions is limited to a maximum of 5 hours per year.

Supporting Documentation for Non-SPARK Credit Hours Approval

To ensure the integrity of your SPARK ARPC and/or ARPS certification, all renewal applications must be **submitted with proof of content and attendance/completion for each CE program event**. The SPARK Institute, Inc. reserves the right to request additional documentation of any continuing education credits claimed on the renewal form. Failure to adequately document CE credits may result in loss or suspension of the designation.

- ▶ Acceptable proof of content is a descriptive outline, agenda or summary.
- ▶ Acceptable proof of attendance is an attendance certificate or certificate of completion, a signed letter from the presenter or event sponsor, or a seminar outline or agenda with a supervisor's verification of attendance. Attendance verification must indicate the number of CE credit hours awarded.

Annual Renewal Fee

The annual renewal cost is \$150 (waived with two SPARK online CE course registrations; \$100 with one SPARK online CE course registration).

Timing

Continuing education must be completed and documentation submitted no later than December 31, 2017.
